

Beyond the Classroom Learning

Alberta Sports Hall of Fame & Museum Education program

“Innovation & Evolution”: Recommend Grades K-6

Dive into the dynamic history and cutting-edge science of sports with “Innovation & Evolution,” an interactive educational program designed to spark curiosity and creativity in young minds.

Our K-6 programs consist of 30 minutes of educational instruction, hands-on examination of artefacts, followed by a brief museum tour and free time to play!

All programs include learning about the preservation of Alberta’s sports history, archiving, and the care and handling of artefacts.

Objectives:

- Understand the evolution of sports and equipment over time.
• Identify the impact of technology on sports and athletic performance.
• Encourage students to think creatively about the future of sports technology.

Curriculum Connections:

Social Studies

- 1.1.2 Describe and demonstrate how people and events shape the communities in which they live.
• 3.1.1 Identify and describe the significance of events, people, and stories that have shaped the local community over time.
• 4.2.1 Analyze how past events and developments affect current events and issues.

Science

- 6.3.3 Describe how the use of technology has influenced our understanding of science.

Career and Technology Foundations

- 1.1.1 Use design thinking processes to generate innovative solutions.
• 3.1.3 Apply the creative process to develop ideas that reflect personal interests and community needs.
